VOLUME XXVI

Oh, Conemaugh with spacious halls and campus bright and green,
Our fondest memories will remain with each endearing scene.
We'll ever pledge our loyalties, devoted hearts to you,
To Thee, our Alma Mater, we'll ever more be true.
Hail, hail to the Red and Black
Hail to our school with a cheer,
We give our best to Conemaugh,
Whose fellowship we hold so dear.

SUPERVISING PRINCIPAL

Dr. Telford Blough

Class of 1964 —

Last June members of the 25th CTHS graduating class received their high school diplomas. In a certain sense their commencement marked a milestone in the history of your school. The program paid tribute to those who built Conemaugh Township. There was only a glance to the future.

Now a year later the Class of 1964 becomes the symbol of a look ahead. Yours is the largest graduating class in the history of the school. And for the first time since 1942 the total high school population went over the 1,000 mark. With this increase in numbers our patrons and pupils have every right also to expect a resurgence of emphasis on vigor, excellence and enlightened concern for the future of our graduates. In this way your teachers keep faith in building a better world.

We are glad you came our way. While you leave a rich tradition and meet a world full of challenges and opportunities, you have every reason to face the future with confidence. As you step forward, we wish you well. God bless you every one.

Telford B. Blough
Supervising Principal

PRINCIPAL

To the Class of 1964, please accept my congratulations for your splendid cooperation and achievements.

The Class of 1964 has begun the 2nd quarter century of secondary education in Conemaugh Township. You have unlimited opportunities ahead and the future is yours. It is my sincere hope that we at CTHS have given you direction towards a happy and rewarding future.

Remember always that knowledge and understanding make up the fuel which powers a happy life.

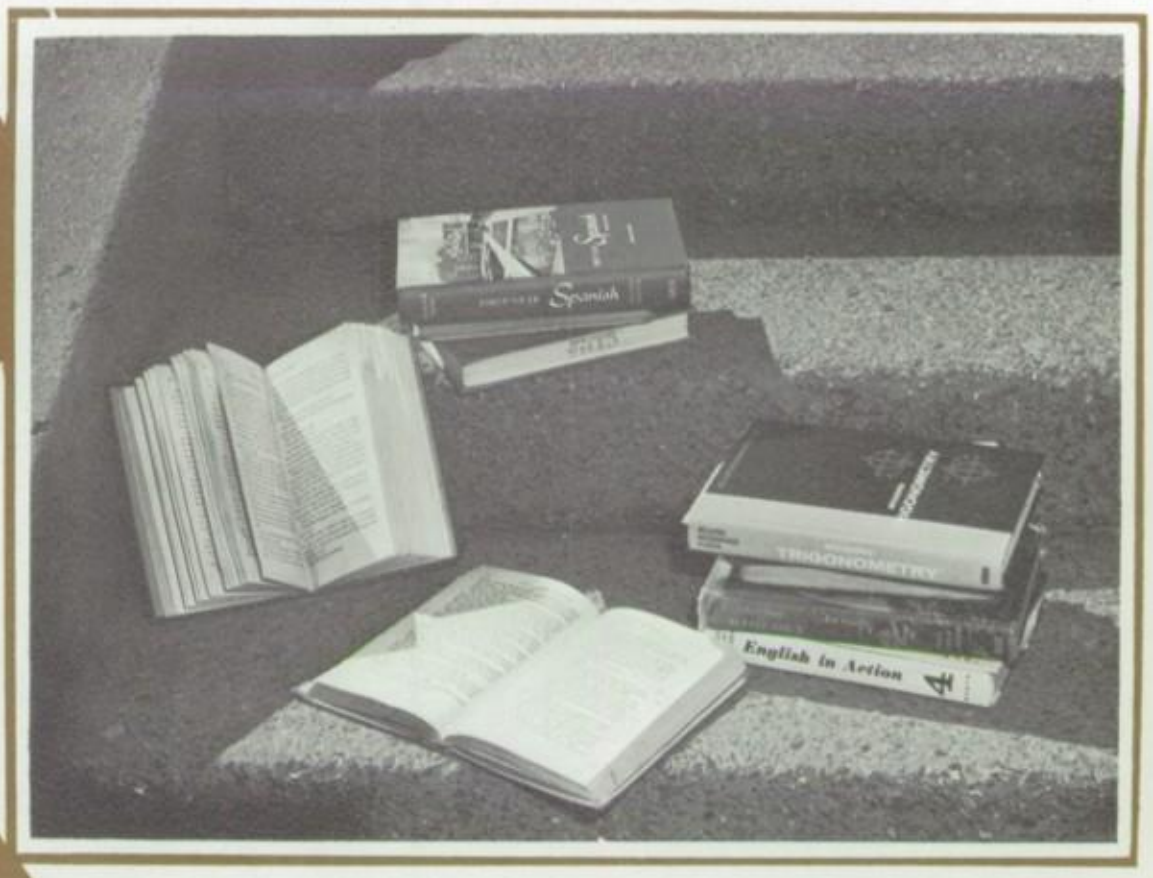
Do you think we 'll do it?



DEPARTMENTS

ENGLISH

English is important. This is quite evident in the fact that each student is required to take six years of English. During this time students receive education in grammar, literature, as well as in public speaking, spelling and writing.

SCIENCE

In modern day America, increasing emphasis is being placed on science. The science department offers science in every phase from general science to physics and anatomy. In these courses the student can prepare himself to meet America's challenge.

MATHEMATICS

Mathematics is another very important subject along with science and English. Math is taught all through high school. The more advanced maths include Algebra I and II, plane geometry and college preparatory math. All these courses prepare the student for the jet-propelled world.

COMMERCIAL

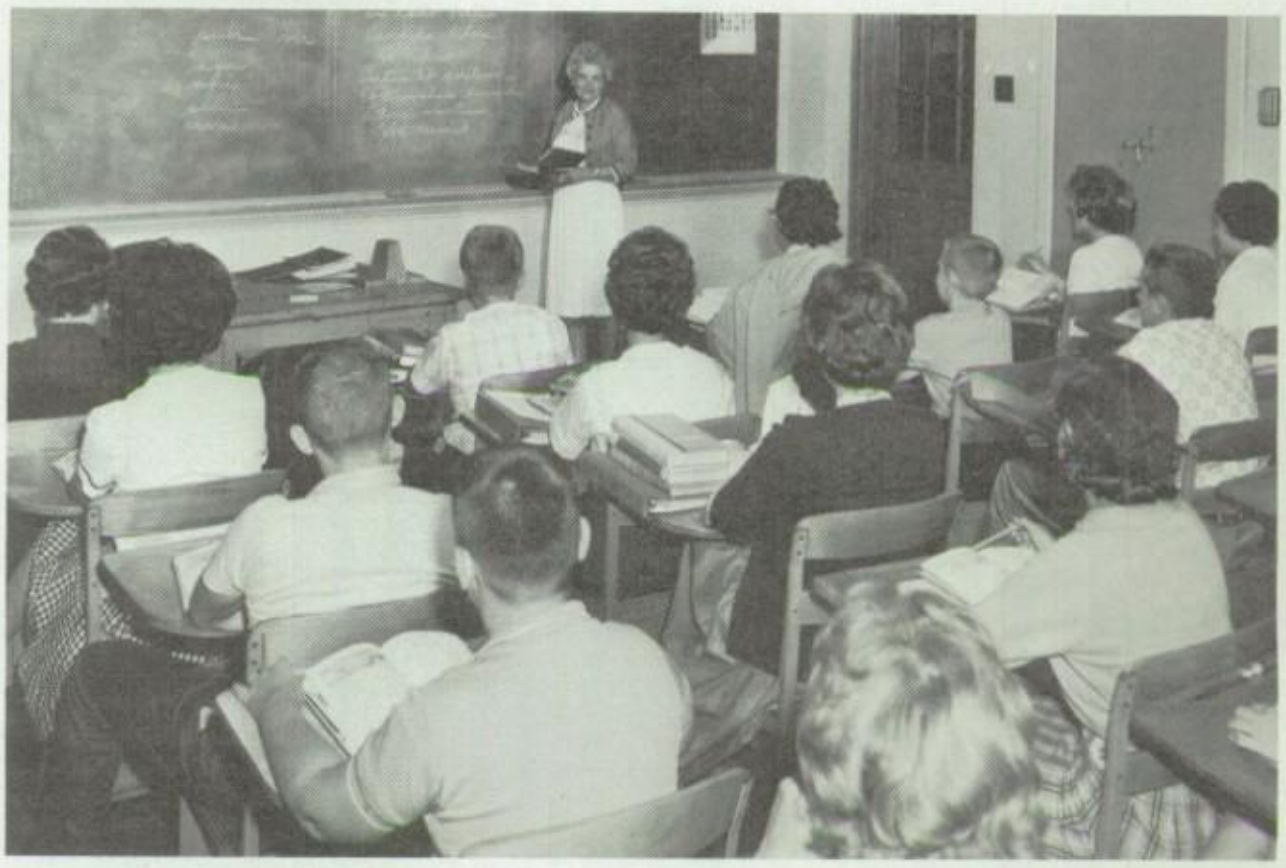
Have any papers to be run-off? This is just one of the jobs given to the Commercial Department. It is in this department that students learn of the business world. A few of the subjects offered are typing, shorthand, business law, bookkeeping, and retailing. Also a new subject, stenotype, has recently been added to the commercial curriculum.

SOCIAL STUDIES

What is happening in current affairs, and how does this parallel past events? These are just a few of the questions answered in the social studies department. Not only events are studied but also people and places. The courses offered in this department include geography; civics; world, national and state history; and Problems of Democracy. World Geography, a new subject, has been added this year.

LANGUAGES

CTHS offers two foreign languages, Spanish and Latin. Latin, taught by Mrs. Wonder, gives the student a wider knowledge of the English language and ancient civilizations. Spanish, taught by Miss Kaufman, enables the student to learn of and converse with our Latin American neighbors.



The library is an integral part of CTHS. It offers the student reference material and books, both nonfiction and fiction, as well as the latest periodicals, and newspapers. No wonder it is so well-liked by so many students.

LIBRARY

ART

Although the headquarters of the Art Department have changed, its purpose has not. Under the direction of Mr. Kososki, students can develop creative ability and exercise self-expression.

HOMEMAKING

All girls at CTHS have an opportunity to develop skills in sewing and cooking in home-making classes. Classes, in charge of Mrs. Good and Mrs. Popyk, also teach good grooming, etiquette and home budgeting.

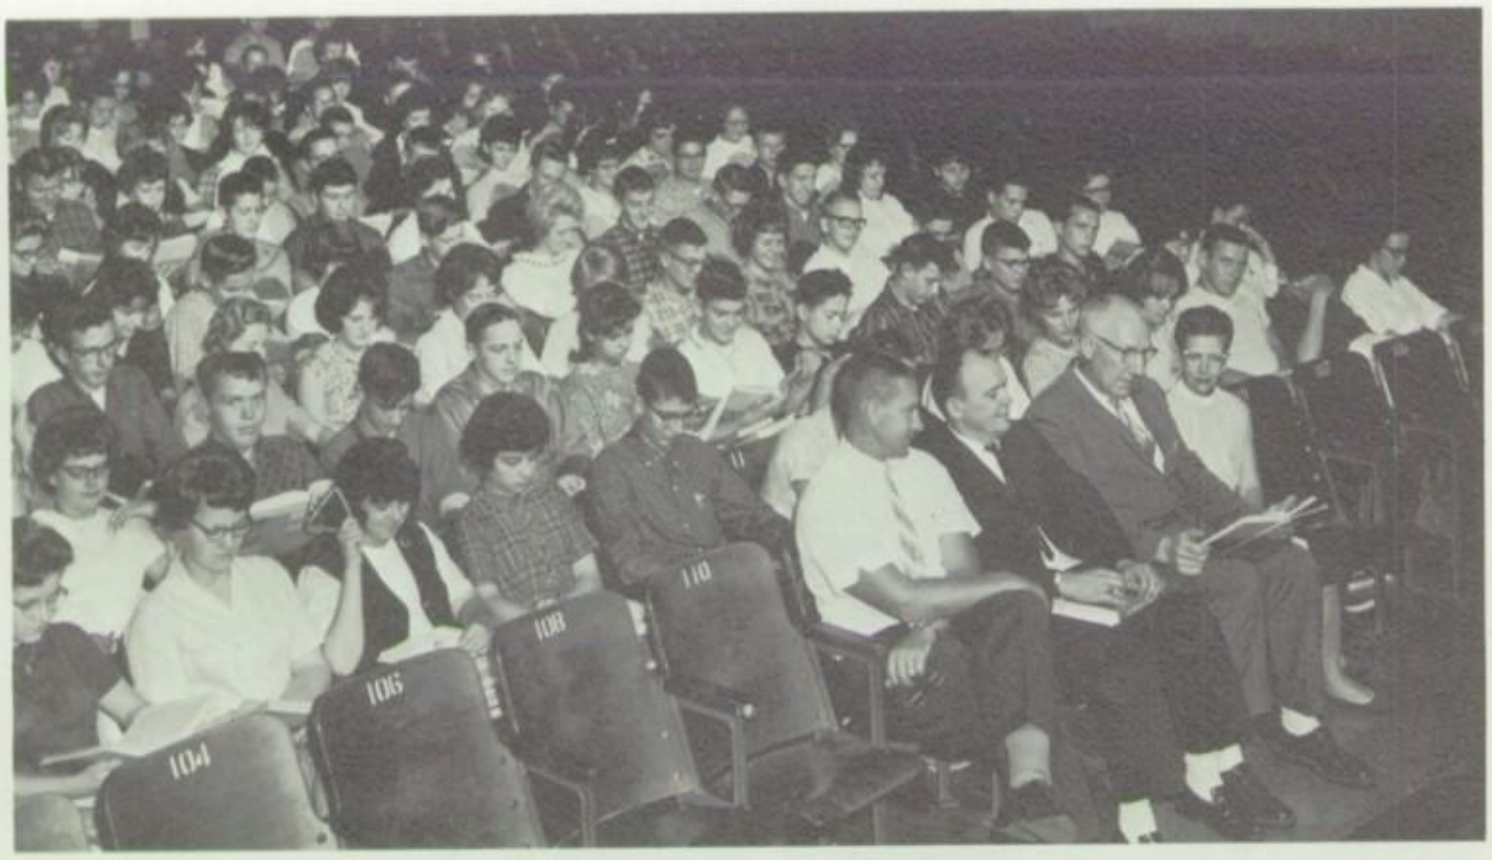
DRIVER ED.

Do you know the principle behind the operation of the clutch? This demonstration is one of the many encountered in Driver Education.

MRS. SHANK'S GEOGRAPHY CLASS

Map study is a part of Mrs. Shank's geography curriculum.

HEALTH



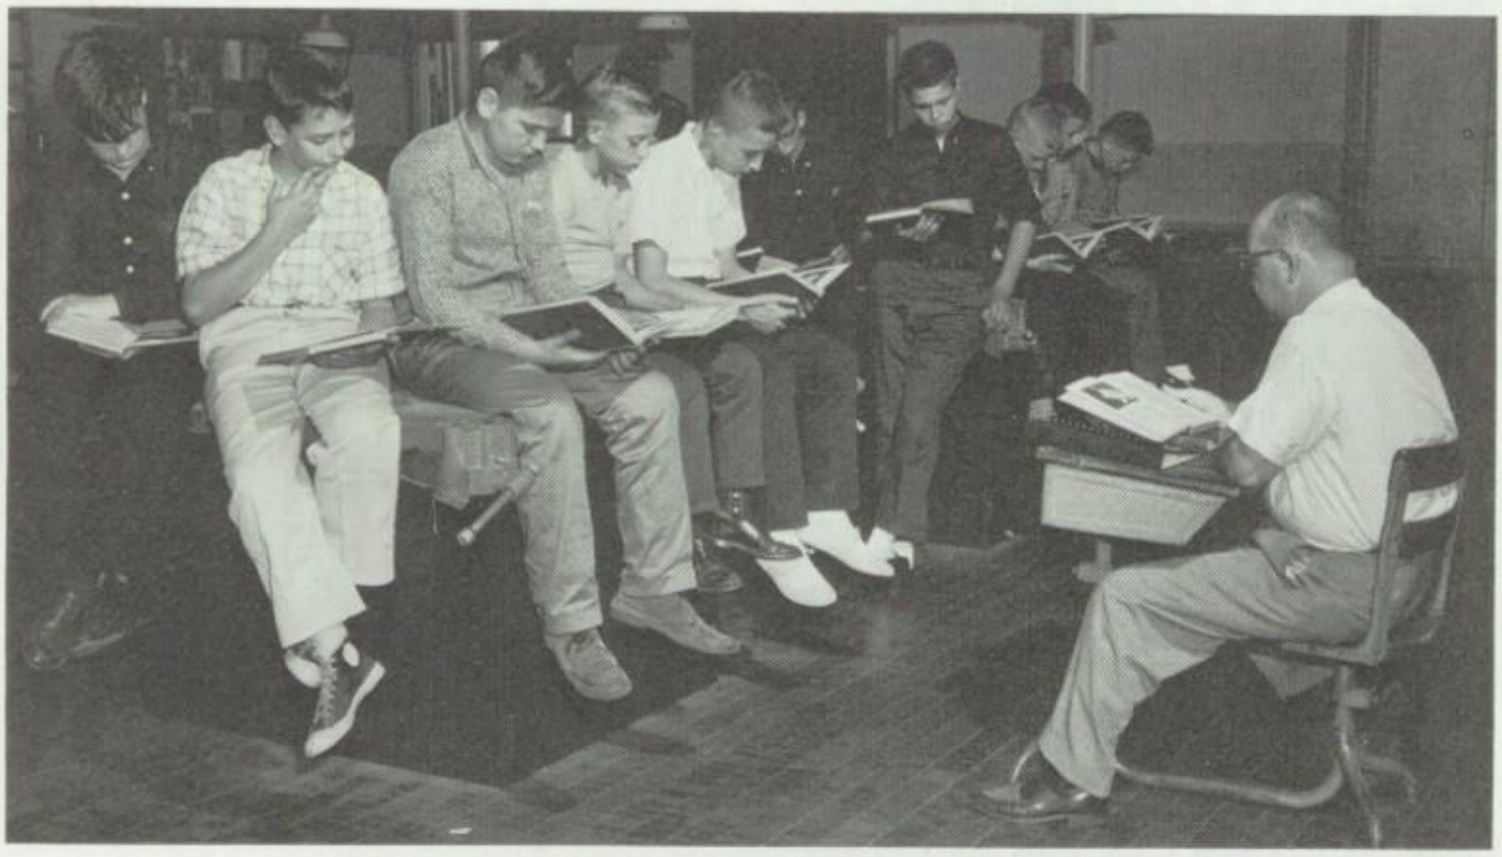
A required part of every student's curriculum is health. This course explains social behavior as well as the structures and functions of the body.

GYM

Students must have development of body as well as mind. Gym classes follow prescribed programs of physical fitness as well as offering various sports.

DRAFTING

Drafting helps prepare students for careers in industry. Students learn the basic use of materials necessary for future success.



SHOP

In Mr. Terebus' shop, Junior High boys learn general use of equipment and basic fundamentals of working with wood.

VOC AG

Vocational Agriculture is designed to teach the most modern methods in animal husbandry, truck farming, dairy farming and conservation to boys interested in becoming farmers.
